Personal statement

Motivated IT graduate with a Bachelor of Information Technology from the University of Colombo School of Computing, specializing in backend and web application development. Currently gaining hands-on industry experience as a Software Engineering Trainee, with a strong interest in building scalable, secure, and efficient backend systems.

Professional Experience

Software Engineering Trainee, Samuel Gnanam IT Centre 09/2025 – 03/2026

- Worked as part of a team-based training program to develop a Hotel Management System, with individual responsibility for assigned backend modules using Spring Boot. Jaffna
- Designed and implemented RESTful APIs and business logic for Hotel management.
- Implemented data persistence using Spring Data JPA and Hibernate for efficient database operations.
- Developed and maintained relational database schemas (MySQL)
- Integrated backend APIs with frontend components and ensured smooth processes.
- Used Git and GitHub for version control, collaboration, and pull request management.
- Performed API testing and debugging using Postman, and participated in code reviews to improve code quality and reliability.

Academic Projects

Motor Traffic Violation Fine Management System, Final Year Individual Project – 07/2025
Bachelor of Information Technology (UCSC External Degree Program) - Grade A

- The web-based Motor Traffic Violation Fine Management System as part of my Bachelor of Information Technology final year individual project. Developed using PHP, MySQL, HTML, CSS, JavaScript, and AJAX, the system digitalize the fine issuance, payment and enhances administrative efficiency.

Education

Bachelor of Information Technology, 09/2022 – 09/2025
University of Colombo School of Computing 

GCE Advanced Level, Kokkuvil Hindu College, Jaffna 2020
Combined Mathematics - B | Chemistry - C | Physics - S

Award

Higher Diploma in Information Technology , 01/08/2024
University of Colombo School of Computing
(Certificate No - 232173)

Key Skills

Soft Skills

- Strong problem-solving and analytical thinking
- Good communication skills
- Team collaboration and ability to work in cross-functional teams
- Time management and ability to meet deadlines
- Adaptability and willingness to learn new technologies
- Attention to detail and commitment to quality
- Self-motivated with a proactive approach to tasks

Technical Skills

- Programming Languages: Java, JavaScript
- Backend Technologies: Spring Boot, Node.js, PHP
- Frontend Technologies: React.js with TypeScript, HTML5, CSS3
- Databases: MySQL, MongoDB
- Version Control: Git, GitHub for source code management and collaborative development.
- API Testing & Tools: Postman (REST API testing and validation)
- DevOps & Tools: Docker, Git, GitHub

Certifications

Full Stack Development (MERN)
